

The UK government says my parent must go out to work and that child care is available. Why do they want a stranger to look after me and not my own parent?

What will you do to:

Stop them from forcing my only parent out to work if I need him/her?

Stop them from punishing us by taking money away from my family if my parent doesn't get a job that stops them from looking after me?

Will you speak to the Govt. about this for me? Yes/No

S.S. (Lone parents and miscellaneous amendments) regulations 2008
