

A parent knows best if child care is appropriate for their child. It must be the lone parent's choice whether to move into work or continue to claim benefits.

What will you do to:

Stop children from being forced into child care when they need their parent?

Stop families from being punished by taking money away from lone parents for taking care of their children?

MSPs/AMs: Will you raise your concerns in your Parliament/Assembly as, despite being a reserved issue, it adversely affects the children and families you represent?
Yes/No

S.S. (Lone parents and miscellaneous amendments) regulations 2008
