

Welfare Reform:
Creating tomorrow's
social problems
TODAY

Want a job with:

Unlimited hours?
Lousy/no pay?
Constant on the job assessment?
Total responsibility?
No time off?

Become a PARENT!

Parenting: the most important,
least paid, job in the world!

Postcard Campaign to
Support Lone Parents

The government intends ...
to force all lone parents
of children over seven years to work or cut
their benefits. These measures for benefit
claimants are gradually being extended
to all other claimants including two parent
families... but first they came for the lone
parents – let us speak up, even if some of us
are not lone parents! Let the children speak
up via the Kids' campaign to the children's
commissioner! Please take this poster
to your groups/print off some postcards for
people to use who have not got a computer.

Every single parent matters?
