

"I'm an anomaly"

DfES calls Home Education an “anomaly” not in line with the Every Child Matters agenda.

Every Child Matters

More than 360,000 children injured in schools each year

450,000 children bullied in school last year

At least 16 children commit suicide each year as a result of school bullying

An estimated 1 million children truant every year

Treasury statistics show more than 1 in 6 children leave school each year unable to read, write or add up

Every Child Matters?

Home Education

because EACH child matters, individually
